# CLEANED!

## READ BEFORE YOU SIGN

Written contracts create mutual obligations. One of the cornerstones of modern commerce is the Contract of Purchase. Written contracts have found their way into human and business relations because their use serves to lessen and to prevent misunderstandings between parties to an agreement.

The purchaser owes it to his pocketbook and his conscience to give **SPECIAL ATTENTION** to that part of the contract which tells him what he is to get, what he is to pay and when.

Don't sign a contract with your eyes shut. Don't take a salesman's word for everything. Occasionally an employer may make a mistake in the selection of salespersons. That seems to be inevitable in all types of business.

But it lies with the customer whether such a handicap to mutual understanding is to be slight or serious. A salesman may convey misunderstanding through zeal or carelessness or even by intent, but the contract if the customer will read it will usually clear up such divergencies, there it is set down in black and white to prevent misunderstandings.

When a signature appears on a legal contract it is a foregone conclusion that the signer is indicating his or her honorable intention of carrying the matter through to a finish. The whole commercial world of debits and credits is built upon and maintained by the strength of signed legal paper. People who sign contracts without reading them, should swallow their losses in silent chargin.

## Great Distributing Center—

THAT Charlotte is the commercial and distributing center of the Carolinas is fully demonstrated by the fact that more than 250 large corporations of national importance handle practically their entire business in this territory through branch plants, branch offices or representatives located in Charlotte. The railways maintain a regular daily schedule of 196 package cars from Charlotte to meet the demands of this immense distributing activity. Extensions of the capacity for 4,500 car loads of freight daily are being made to take care of the large growth of manufacturing and distribution. The new branch of the Ford Motor Company, which cost \$2,000,000.00 to build, located in Charlotte, is designed to take care of the requirements of the Carolinas, estimated at 120,000 Ford cars annually.

# TOURIST CENTER

THE mild winter climate of Charlotte, with almost total freedom from snow and ice, and its cool summer temperatures, due to location on the Piedmont Plateau, are making it a favorite stopping place for tourists. Added to the attractions of climate are seven fine hotels with 1463 rooms, including the new million and half dollar Hotel Charlotte. Pinehurst, winter golf capital of the U. S. A.; Blowing Rock with its wonderful Mayview Manor; Chimney Rock, America's most spectacular monolith—all are within easy reach of the tourist headquarters in Charlotte. Two excellent country clubs, the Myers Park Club and the Charlotte County Club, each have fine 18-hole golf courses, with golfing privileges available the year around. Many points of historic interest, including the birth-places of two great Presidents. Andrew Jackson and James K. Polk, add much interest to Charlotte as a tourist center.
